

One Step Ahead of Downtime!

Keep your process systems running at peak performance with liquitec's certified maintenance and service expertise.

Valve Inspection & Maintenance

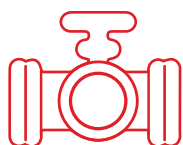

Ensure smooth and safe operation for all valve types.

Our Service Includes:

On-site or Work-shop Repair

Flexible Response

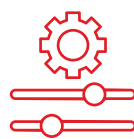

Inspection & Leak Testing

Detect Wear Early

Overhaul & Maintenance

Extend Reliability & Lifespan

Adjustment & Calibration

Precise Performance Every Time

Complete Documentation

100% Traceability & Compliance

Agitator Service & Maintenance

Ensure safe and economic operation for all agitator types

Our Service Includes:

On-site or Work-shop Repair

Flexible Response

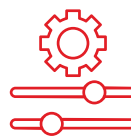

Inspection & Leak Testing

Detect Wear Early

Overhaul & Maintenance

Extend Reliability & Lifespan

Adjustment & Calibration

Precise Performance Every Time

Complete Documentation

100% Traceability & Compliance

Pump Service & Maintenance

We assure strong performance for all types & brands of pumps, centrifuges & decanters.

Hose Service & Inspection

Minimize risks and maximize uptime with liquittec's complete hose lifecycle management.

Our Service Includes:

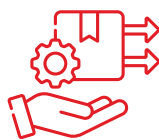

Testing & Documentation

In line with Industrial Safety Regulations

Custom Assembly

Tailor-Made Hoses for Any Process

Mobile Express Service

On-Site Production & Replacement

Hose Register Management

Prevent Failures Before they Occur

Optimization & Consulting

Improve Efficiency & Lifespan

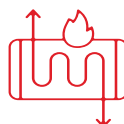

Pharma & Food - Process Safety Inspections & Maintenance

Ensure hygiene and process integrity at every stage.

In Containers:

- Surface Crack Testing
- Cleaning Checks
- Spray Shadow Tests
- Large Tank Inspection without Entry

In Heat Exchangers:

- Internal / External Leak Tests
- Individual Plate Testing

Endoscopy of Pipelines:

- Welding Defects
- Deposits

Sensor Inspections:

- PT100
- Pressure Transmitter

Add-on Services:

- Leak Detection
- Endoscopy Service
- Cleaning Validation Service
- Revision of BOM & R&I Schema

Reliability

Solution Provider for Hygienic & Sterile Process Systems

bio-plus® Process Components

- Fittings for Pipeline Construction (bio-plus®, DIN32676, DIN11864, etc.)
- Line Sight Glasses
- Check Valves – Now also Magnetically Closing
- Inline Strainers & Orifices
- Hose Assemblies & Fittings and Couplings
- Special Components

bio-m® Magnetic Stirrer Technology

- BMA Bottom Agitators
- BMAF Fermenter Agitators
- TMAi Tank Agitators with Internal Bearings
- TMAe Tank Agitators with External Bearings
- Specialty Agitators
- Compact Tank Bottoms / Lean Tank Bottom for Minimum Level Mixing

bio-s® Sealing Technology, Equipment & Accessories

- Tri-Clamp Seals in All Variants and Materials
- DIN11864 Product Seals in All Materials
- DIN11851 Seals in All Materials
- Manhole Seals
- Validation Seals & Products
- Torque Products
- Product Marking Products

liquitec Engineering

- FEM – Finite Element Analysis
- CFD – Flow Simulations
- Design Services
- Custom Designs
- Failure Analysis

steri-pure® Valve Technology

- steri-pure® Diaphragm Valve
- Bottom Outlet & Multiport Diaphragm Valve
- steri-pure® Sampling Valves
- steri-pure® Special Valves and Ball Valves

bio-t® Vessel Fittings

- Vessel Clamp Flanges, Block Flanges
- Ingold Fittings & Plugs
- Vessel Sight Glasses & Lighting Solutions

bio-cleanseal® Cleanroom Products

- WS Wall Feedthroughs
- FS Bottom- & MPS Multipanel Feedthroughs
- Cleanroom Hose Trolleys
- Hose Racks
- Vessel Ladders

bio-serv® liquitec Services

- Plant Service for Valves, Pumps and Hoses
- Laser Welding
- Maintenance & Repair Work Solutions
- OEM Spare Parts Management
